WIT AND HUMOR.

Never judge a girl in the parlor, but try to catch her in the kitchen.

And if there you chance to see,
Nothing where it ought to be,
Unwashed dishes standing round,
While things needed can't be found,
Kitchen furniture all dusty,
Greasy sink, and stove lids rusty,
Specked mirror, spotted floor,
Finger marks upon the door,
Collaries, untidy gown,
One sleeve up and one sleeve down,
Nails black and sour face,
As though cooking could disgrace,
Seeing these in whole or part,
You'd better get your hat and start.

Hawk-Eye: All of one long, happy hour mamma had been reading to the little ones, Sunday afternoon, and talking to them about heaven and the angels, and showing them pictures of angels, with their snowy wings. Suddenly Jack shouted, Mother! When I'm an angel I want to be Shanghai! Shocked silence on the part of the family circle, followed by the explanatory clause by Jack, "Feathers on my legs you know!" Mother dismissed the little congregation without the usual benediction.

"Look at de pieanna, folkses," said old Sam Johnson, the other night, to a roomful of his sable friends; "look at de pieanna. Dere is whar you see an illegory, showing the proper spear ob de brack man. Doan you see de common notes, the white trash down in de lower row. all run togedder like a whitewashed bo'd fence? Au' up in the balconia you see brack notes, de people ob color, arranged—in select assemblies of twos and frees."

A writer tells us to place our hands upon our hearts and feel its muffled beat—that it will sadden us. True; but not half so much as placing our hand upon our wallet, and realizing from its thinness that we must soon become the muffled beat.

It is now announced on the authority of an "eminent physician" that it is not healthy to rise before 8 o'clock in the morning. This applies only to men. Wives, it is said, can rise at 7 and start the fire as heretofore.

The other day the professor of German asked an unregenerate Junior what the gender of a certain noun was. The Junior quickly replied: "I think it is neuter, sir; at any rate, it is neu ter me."

In seeking to invent a troche to take away the odor of onions, a Quebec druggist invented something which removed his breath altogether. The man who gets ahead of an onion has got to peel his coat.

It requires about as long to get a girl well out of her 10th year as for a horse to get beyond "8 years old this spring."
